Workshop in the Netherlands

Building the Inner Temple

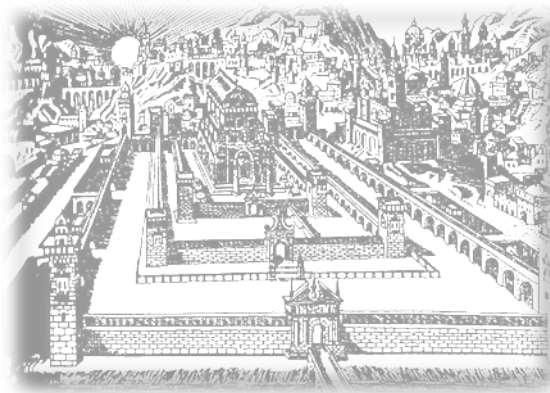

10.00-17.00 hr | saturday 11 December 2010
10.00-16.00 hr | sunday 12 December 2010

Building the Inner Temple.

This course will be an interior and historic journey in search for the purpose of life and Existence.

In a two-day guided meditation exercise we experience various stages of evolution as well as explore the world, encounter a teacher and begin to train under an esoteric discipline.

We participate in a school of the soul constructing a temple.

Upon its completion and dedication, we enter this remarkable building and pass through a series of initiations which reveal our state of development. In ascending the various symbolic chambers we encounter our inner Master, enter the Heavenly Hall of the Spirit and experience the Divine Realm.

We then descend and return into the everyday world where we carry the Light of what we have learnt in the form of our personal fate.
