

# Patterns of Creation

**A one-day workshop with Rev. Maggy Whitehouse, author of *Total Kabbalah, The Illustrated History of Kabbalah* and *Kabbalah and Healing***

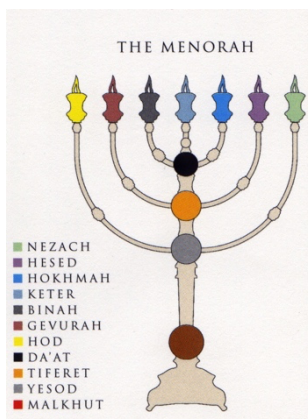

We will explore the consistent patterns that guide all of creation, identified for us by ancient priests and shamans and revealed through the First Temple and the Menorah of the Hebrews.

The Temple itself was designed according to the six days of creation in Genesis and the instructions for the Menorah are laid out in Exodus. However, much of this knowledge was lost with the purge of the Temple by Josiah in 623 BCE – at great cost to the ecology of the Earth.

**Kabbalah, the Hebrew word for ‘receive’ is the foundation of Judaeo-Christian mysticism. It reveals the relationship between the Great Mystery, the Universe and Humanity.**

Maggy studied the *Toledano Tradition of Kabbalah* with by Z'ev ben Shimon Halevi for 25 years and now teaches worldwide, updating the tradition for the present day.

*The Perennial Tradition teaches that all that is true, is true always and everywhere. Kabbalah is part of this eternal wisdom, a way of describing and understanding the patterns of the universe for the purposes of healing our relationships with God, ourselves, each other and the Earth. This is an oral tradition, intended to be updated by each generation's teachers. As a woman and a Universal Christian rather than a Jewish man, Maggy is a much-needed 21st century pioneer of this important work—Fr. Richard Rohr.*

*“Maggy Whitehouse is, undoubtedly, the foremost Kabbalistic teacher and author alive on the planet. She brings clear eyes, deep thought and a loving heart to the mysterious process of unlocking wisdom from its ancient vaults. Let her entertain you, embolden you and awaken you to the power of your own essential nature”— Professor Peter Bolland, Southwestern College, San Diego.*

**Date: Saturday 7<sup>th</sup> October 2023**

**Place: Silver Spring Masonic Lodge, MD 20901**

**Price: \$85**

**Booking via Walter Benesch: [php1477@gmail.com](mailto:php1477@gmail.com)**
