Patterns of Creation

Logos and the Tree of Life in the Gospel of John

by **Stephen Pope**

Weekly two-hour sessions via Zoom with Stephen Pope BD MA,

co-hosted by **Rev Dr Megan Wagner**

THIS COURSE illuminates the spiritual teachings in the Greek-Aramaic text of the Gospel of John, so that they become, for you, the living reality that is beyond their symbols.

Stephen and Megan will help you to experience the spiritual truths contained within the original Greek-Aramaic Gospel for yourself, taking you beyond the everyday, unconscious mind, into your eternal essence.

This formless, eternal essence, which exists within the heart of every human being, is called Logos in John's Gospel, and usually translated as Word: Eternal Presence that contains and connects every living thing within the great circle of life.

We will explore Stephen's fresh translations from Greek and Aramaic, look at the roots of the Gospel teachings in the original Biblical Hebrew texts and realize the profound spiritual truths contained within its rich symbolic language and sacred geometry of the Tree of Life.

Through meditation and contemplation, we will find deeper understanding of the Christos, and the figures of Joshua/Jesus and John the Baptist and restore Mary Magdalene to her key role within the Gospel teachings. She is the feminine face of the Christ, the central spine within, connecting the Divine and Spirit with the Soul, and Mind-body. John's Gospel tells us that spiritual awakening is freedom from fear, and complete release from the needless suffering that we inflict upon ourselves, each other, and the creatures of the natural world. As we awaken, we step out of the unconscious thought streams that dictate so much of our lives and realize our natural state: knowing that all life is sacred, and we are intimately connected with the whole of life.
